208—240 VAC 1 Phase 60 Hz 50 Amp Service	

EASY-TO-USE FEATURES

- Touchscreen Operator Control Panel
- Ability to choose warm, hot, or cold water storage
- Trainer Platforms
- Emergency Drain Time of 23 seconds
- Unobstructed Large Viewing Windows
- Ramps with Non-slip Mats

Through the control of hot or cold water temperature, water height (to control buoyancy and resistance), speed and duration, horse trainers and veterinarians can utilize the AquaPacer to customize a protocol for each horse's specific needs.

The AquaPacer Plus aquatic underwater treadmill unit offers more control with hot and cold water temperature, water height (to control buoyancy and resistance), speed and duration along with better views from windows and platforms on both side. Equine trainers and veterinarians can utilize AquaPacer Plus to customize a protocol for each equine's specific needs.
