

As low as 40° F

Cold water therapy that supports faster recovery, helps reduce fatigue, improve performance, and minimize the risk of injury.

## UNLOCK THE POWER OF AQUATICS

Manufactured of marine grade stainless steel the Premier Model CET Equine Spa is designed for a 20+ year life span resulting in the lowest lifetime costs by far.

Not only the safest spa on the market but the most therapeutically effective. Maintaining a constant temperature throughout the whole therapy session maximizes your therapeutic advantage.

Treats conditions such as; tendinitis, ligament damage, wounds and cuts, sore shins, wind galls, bag spavins, laminitis, poor hoof growth, joint conditions, general stiffness and soreness, etc.

### QUICK FACTS

Overall Length	98.4"
Overall Width	90.5"
Weight	950 lbs (dry weight)
UL Approved Pumps and Chiller	

### CHAMBER

Temperature	40°F (maintained)
Color	Your Choice
Construction	Stainless Steel
Chiller External	36" x 36"

### ELECTRICAL

230v & 110v Options | UL Approved Electricals

### HOW IT WORKS:

1. Temperature
2. Salt Concentration
3. Depth of Water
4. Aeration

### FEATURES

- Raised side bars and neck guard for protection
- Integrated filters, pumps, tank and blower
- Triple filtration system
- Light weight
- Simple bush button operation
- High speed pumps for rapid fill
- Quick release anti-rear strap
- Can be mobile
