

Rehabilitation, Training,
Conditioning & Wellness

The AquaPacer underwater treadmill system is designed for the advanced development and improvement of equine athletes of all disciplines by offering low-impact, high-resistance therapy or workouts for faster recovery and rehabilitation from injury, optimal conditioning, and overall fitness.

UNLOCK THE POWER OF AQUATICS

Quick Facts	
Overall Length	240" (609.6 cm)
Overall Width	64" (162.6 cm)
Overall Height	53" (134.6 cm)
Treadmill Speed	1.0-5.0 mph (1.6 kph - 8 kph)

Exercise Chamber	
Inside Length	144" (365.8 cm)
Inside Width	26" (66 cm)
Inside Height	53" (134.6 cm)
Water Depth	1"-43" (30 cm - 109 cm)
Fill / Drain Time	Approximately 5 Minutes
Running Surface Length	125" (317.5 cm)
Running Surface Width	24" (61 cm)
Door Opening	36" (91.4 cm)
Weight	Empty: 4,500 lbs (2041 kg) Full: 13,000 lbs (5897 kg)

Water Storage Tank	
Length	92" (233.7 cm)
Width	40" (101.6 cm)
Height	88" (223.5 cm)
Weight	Empty: 430 lbs (195 kg) Full: 8,766 lbs (3976 kg)

Electrical	
230 VAC 1 Phase 60 Hz 50 Amp Service	

Easy-To-Use Features

- Touchscreen Operator Control Panel
- Trainer Platforms
- Emergency Drain Time of 23 seconds
- Unobstructed Large Viewing Windows
- Ramps with Non-slip Mats
- **Optional** Ozone Secondary Sanitization and/or Pre-filter System

Through the control of water height (to control buoyancy and resistance), speed and duration, horse trainers and veterinarians can utilize the AquaPacer to customize a protocol for each horse's specific needs.

In addition, our underwater treadmill is commonly used for healthy equine needing more strength or endurance or to help correct gait imbalances. Aquatic therapy in the AquaPacer will promote rapid build-up of muscle across the shoulders, rump, and top line, as well as improve circulation and decrease inflammation.
