

Rehabilitation, Training,
Conditioning & Wellness

The AquaPacerPlus underwater treadmill system is designed for the advanced development and improvement of equine athletes of all disciplines by offering low-impact, high-resistance therapy or workouts for faster recovery and rehabilitation from injury, optimal conditioning, and overall fitness.

UNLOCK THE POWER OF AQUATICS

Quick Facts

Overall Length	240" (609.6 cm)
Overall Width	64" (162.6 cm)
Overall Height	53" (134.6 cm)
Treadmill Speed	1.0 – 5.0 mph (1.6 kph - 8 kph)

Exercise Chamber

Inside Length	144" (365.8 cm)
Inside Width	26" (66 cm)
Inside Height	53" (134.6 cm)
Water Depth	1" - 43" (30 cm - 109 cm)
Fill / Drain Time	Approximately 5 Minutes
Running Surface Length	125" (317.5 cm)
Running Surface Width	24" (61 cm)
Door Opening	36" (91.4 cm)
Weight	Empty: 4,500 lbs (2041 kg) Full: 13,000 lbs (5897 kg)

Electrical

230 VAC | 1 Phase | 60 Hz | 50 Amp Service

Easy-To-Use Features

- Touchscreen operator control panel
- Trainer platforms
- Emergency drain time of 23 seconds
- 2 Large unobstructed viewing windows on each side
- Clear doors at each end
- Ramps with non-slip mats

The AquaPacer Plus underwater treadmill offers more control with hot and cold water temperature, water height (to control buoyancy and resistance), speed and duration along with better views from windows and full platforms on both sides. Equine trainers and veterinarians can utilize the AquaPacer Plus to customize a protocol for each equine's specific needs. As well as rehab, our underwater treadmill is often used for healthy equine needing more strength or endurance or to help correct gait imbalances. The AquaPacer will promote rapid build-up of muscle across the shoulders, rump, and top line, as well as improve circulation and decrease inflammation.

The water storage tank(s) and equipment can be installed in an adjacent room.

Option to add 500 gallon cold water storage tank or 750 for the addition of salt water therapy.

Water Supply Options

Warm water 1,025 gallon horizontal tank	Ambient to 104°F (40°C)
Cold water 500 gallons	Ambient to 50°/38°F (10°/3.33° C)
Cold water 750 gallons	Ambient to 50°/38°F (10°/3.33° C) for salt water therapy
