

Hudson Aquatic Systems & Unbridled Equine Present:

AquaPacer Training

AQUAPACER
by HUDSON Aquatic Systems

UNBRIDLED EQUINE™

AquaPacer Training

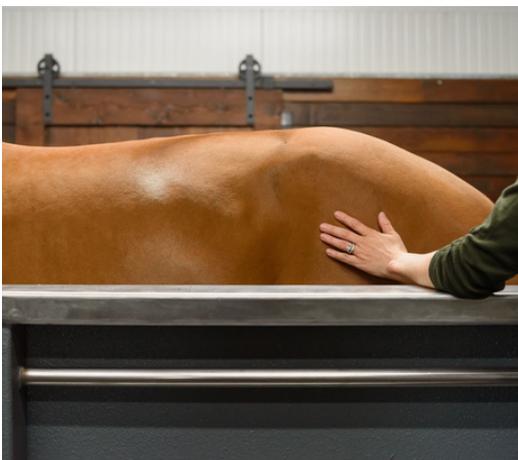

Unbridled Equine is partnering with Hudson Aquatic Systems to offer a unique consulting and training experience!

This opportunity is geared towards new and existing Hudson AquaPacer owners that want to learn how to utilize their AquaPacer safely and effectively. This comprehensive program includes:

- Pre-training Virtual Consulting Meetings (8-10 hours total)
- Customized consent forms, intake paperwork & record keeping
- AquaPacer On-Site 3 day Training
- Post-training Support (6 months total from training date)

The 3 day on-site training is led by two Unbridled Equine team members at your facility. Unbridled Equine has created step-by-step protocols to guide horses and handlers on best practices while utilizing the AquaPacer in their program. The training includes:

- how to introduce a horse to the AquaPacer and each unique element they will experience during a water treadmill session
- roles and expectations for the two person team that work with the horse and operate the AquaPacer
- understanding and selecting the appropriate settings of the AquaPacer for each individual horse - including water temperature, water height, treadmill speed and duration of session
- preparedness for the unexpected and unique experiences that occur with horses and water treadmills
- cleaning, upkeep and care for your AquaPacer treadmill

Setup For Success!

You've already made horse fitness and healthcare a priority - don't stop there! Having the right equipment is only one part of the equation, knowledge and hands-on experience will set you on the pathway to success. Unbridled Equine will help you get the most out of your Hudson AquaPacer.

TRAINING SCHEDULE

DAY 1

- Introductions & Expectations
- Tour of your barn/facility
- Understanding intended use and hopes for AquaPacer & Business Plan (if applicable)
- Overview of AquaPacer safety & practice running it without horses
- Begin introducing and desensitizing onsite horses to the AquaPacer using the Unbridled Equine step-by-step protocols

DAY 2

- Roles & responsibilities - 2 person team approach
- Continued practice with onsite horses through the protocols
- Deep dive into settings the AquaPacer offers & when/how to use them with different horse's needs
- Safety, safety, safety...practice techniques and create protocols for your program

DAY 3

- AquaPacer cleaning and care
- Two person team practice
- Complete step-by-step AquaPacer training with multiple onsite horses
- Review AquaPacer settings and use
- Review administrative tasks & tailor them to your needs & program
- Practice makes perfect - water tread horses!
- Questions & Concerns

UNBRIDLED EQUINE

**TAKE YOUR HORSE'S PERFORMANCE
TO THE NEXT LEVEL**

Rehab. Performance. Education. Massage. MagnaWave.

Unbridled Equine provides comprehensive and customized rehabilitative and performance care that takes into consideration all aspects of your horse's wellbeing. Our exclusive and cutting edge services restore your athlete to their peak performance, and more importantly, will get you and your best friend back in the ring.

OUR TEAM

Katie Hawkins

Katie Hawkins is the founder and owner of Unbridled Equine. She holds a BS in Animal Science from University of Illinois and a Masters of Arts in Education from Dominican University. In addition to being a lifelong equestrian and currently competing in the jumper ring, Katie is a Certified Equine Massage Therapist and FEI Permitted, which allows her to work on equine athletes at the top of their sport. She is also a certified Equine Rehabilitation Therapist and certified in RockTape Kinesiology taping, Acupressure, and Equine Trigger Point therapy. Katie believes that every horse deserves to be "heard." Through massage therapy and rehabilitation, she can listen to where a horse is hurting, compensating or struggling with tension and work to relieve it so they can not only feel better, but perform to their best ability.

Kayla Talkington

Kayla wears many hats for Unbridled Equine. She is a Certified Equine Massage Therapist and MagnaWave PEMF practitioner. For the last two years, Kayla has run the day-to-day operations as Rehab Manager of Unbridled Equine Rehab & Performance Solutions. Kayla has been integral in the creation and implementation of each horse's rehab plan and aided in the creation of the water treadmill protocols. She has over 20 years of horse experience and has ridden in 5 different disciplines. Kayla is drawn to equine health and wellness because she loves caring for and bringing healing to horses that gives their entire heart to the people in their lives. We also lovingly refer to Kayla as "Snow White" because at any barn or location dogs, cats, horses, cows, goats and even insects flock to her.

WHAT'S NEXT...

We look forward to hearing from you!
